Starting conference calls in Cisco Jabber for Windows

Operating system: Windows desktop

Release:11.9, 12.0, 12.1, 12.5, 12.6, 12.7, 12.8

Prerequisites:

Internet connection, in some cases a VPN connection to the TU is required.

If you want to talk to several people at the same time, you can start a conference call in Cisco Jabber. Instead of setting up a formal conference by sending invitations and booking meeting rooms, you can start your group call immediately.

To start your conference call, simply select one of these methods:

With the call in progress:

Convert the call into a conference call by clicking "More Call Controls" in the Call Control and then selecting the Conference Call option.

Click on "Conference" and add further participants:

Call subscriber (available phone numbers are displayed)

By clicking "Join" the respective participant is added to the current conference call.

Any active participant in a conference call can add other participants in the same way as described above. (At least, this is true for Windows clients) On Mac, this procedure could not be confirmed yet.

You can use "Remove" to remove individual participants from the conference call.

Via a group header:

Move the mouse over a group header and click the Call button to start a conference call with all available contacts in that group.

Create a group:

Dirio Miller		* - ¤ ×		Ø	
(5) Q, sucten oder annäm (+		Detail	2	Nev 3	Kardakt
		tint.		contakte importieren	Personicher Kontakz
Antoriak		Amicht		Meis Profil arzeigen	Gruppe
D ^{1.46}	TU	HR	2	Kenneort ändern	Benutzenderlinierte Registankante
D KIC		Ahmelden			
16 C		Brenden			
+ Kontakte importieren	Test User				

Start a conference call:

Add participants to the conference by calling them:

Coce Jabb er					0 -	$\square \times$
6	Q sechen oder amufen	•	Konferenzi DBD/08		□ Φ	•
B	K Konferenz	9		R 0.	Teilnehmer einladen	
٠	EE_ Erika Entwurf			PS	Franz Stolber In Ganteena	
%	Del Gran Marcatt			EE	Enita Entworf Victor of Entrit	0
Ē	31 0001 00 000			70,	Text Liver Water and Brites	0

Call subscriber (available phone numbers are displayed)

By clicking "Join" the respective participant is added to the current conference call.

Any active participant in a conference call can add other participants in the same way as described above. (At least, this is true for Windows clients) On Mac, this procedure could not be confirmed yet.

You can use "Remove" to remove individual participants from the conference call.
