

Wie geht es meinen Studierenden? Anonyme Umfrage in TUWEL

Especially at times like this, it is important to track the mood and study progress of your students.

It is possible to get an understanding of this using the activity "Feedback". This can be anonymous.

Step-by-Step manual

1. Log into TUWEL and open your course
2. Start the editing mode (top right corner)
3. Set up an activity 'Feedback' according to these instructions ([Video](#), [Cheat Sheet](#)).
4. Add questions to your questionnaire. Do you want to use different question types, but don't know how? Watch [this demonstration](#) at the "TUWEL Einsatzszenarien" course. (It is necessary to sign up for the course once)
5. Promote the feedback questionnaire with your students by means of using the news forum (instructions: [Video](#), [Cheat Sheet](#)). Set up a channel for students in case they should have any questions. For that, use a forum (instruction: [Video](#), [Cheat Sheet](#))
6. Done!

The screenshot shows the TUWEL 'Feedback' activity editor. At the top, there's a blue header with the TUWEL logo and navigation options like 'Meine Kurse' and 'Hilfe'. Below the header, the title 'Feedback' is displayed. The 'Modus' is set to 'Anonym'. The 'LVA' field is empty. A note states: 'Die LVA wird von mir mit (sehr gut 1 ... 5 nicht genügend) in Bezug auf folgende Kriterien bewertet:'. There are four criteria listed: 'Relevanz', 'Inhalt', 'Vortragende', and 'Gesamt', each with a radio button set to 'Nicht ausgewählt' and a 5-point scale. Below this, a text area is provided for 'umfassendes Feedback'. A section for 'Eigenschaften' includes checkboxes for 'fakt', 'spannend', 'mitreißend', 'informativ', 'veraltet', 'uninteressant', 'interaktiv', 'passiv', and 'langweilig'. A 'Beurteilung' section has radio buttons for 'Nicht ausgewählt', '0', '1/Fast', '2/Wenig spektakulär', '3/Recht interessant', and '4/Die beste LVA meines Studiums!'. At the bottom, there's a question 'Von 1 bis 10, wie spannend war diese Rückmeldung?' with a 10-point scale and a 'Pflichtfrage' indicator.

You can also use graphic spaces to provide associated information, tips or hints for users.
